

Conflict Mineral Declaration

Date: 29 April 2016

Conflict Mineral Declaration

This document is to certify that Vision Engineering Ltd products do not contain any conflict materials (including Gold, Tantalum, Tin and Tungsten) originating, sourced or smeltered from the Democratic Republic of Congo or adjoining countries.

In line with The Dodd-Frank Wall Street Reform and Consumer Protection Act 2010, we have approached all our major suppliers to ensure that no conflict materials have been used in the products supplied to us, and that they are actively working to source components that are conflict free throughout the supply chain.

We will continue to monitor our supply chain through due diligence using the CFSI Reporting Template (CMRT), and work with our suppliers towards greater transparency within the supply chain.
