

Vulnerability Disclosure Policy (CRA Compliance)

Vision Engineering is committed to maintaining the security and resilience of our products with digital elements. We welcome reports of potential cybersecurity vulnerabilities from customers, partners, researchers, and the wider security community.

Reporting a Vulnerability

If you believe you have identified a security issue affecting a Vision Engineering product, please contact our security team:

security@visioneng.co.uk

Please include, where possible:

- Product name and version
- Description of the issue
- Steps to reproduce
- Potential impact
- Any known exploitation
- Your preferred contact details

Our Commitment

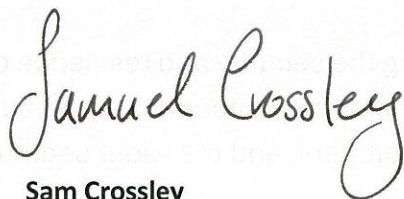

Vision Engineering will:

- Acknowledge receipt of valid reports
- Investigate and assess the issue promptly
- Work with you to validate findings
- Provide remediation or mitigation where required
- Communicate transparently with affected customers
- Handle reports in accordance with the EU Cyber Resilience Act (CRA)

Responsible Disclosure

We request that reporters avoid publicly disclosing vulnerabilities until remediation is available. We will coordinate disclosure where appropriate.

Signed:

Sam Crossley
